SUPPLEMENT TO  
REPORT NO.

1. The Rumanian General Staff has ordered the Section for Special Work of the Rumanian State Railroads (CFR) to construct by 1 October a belt-line around Bucharest connecting with all the lines entering the capital. Switch points and small stations are to be constructed at all intersections of the belt-line with lines entering the city. According to an official of the State Railroads, this belt-line is designed to permit passage to trains around Bucharest without entry into the principal stations and to maintain traffic in event these stations are destroyed.
2. The new belt-line passes near the Buftea station on the Bucharest-Ploesti line.
